Report ID: recording_1763586755006

Patient Name: ■■■■ ■■■■■■■■

Age: 21

Sex: ■■■■

Exam Type: physical examination

Date: N/A

Clinical History

Patient reports sore throat, eye pain, and headache for the past two hours. No medication taken.

Detailed Findings

- Dry eyes — Dryness in the eyes was discovered and appropriate eye drops were prescribed.
- Sore throat — The cause of the sore throat was identified and appropriate anti-inflammatory medications were prescribed.
- Headache — Headache was addressed with Panadol and anti-inflammatory medications.

Impression Summary

Patient presents with dry eyes, sore throat, and headache, all of which have been addressed with appropriate treatments.

Recommendations

- Use prescribed eye drops for dry eyes.
- Take prescribed anti-inflammatory medications for sore throat.
- Use Panadol for headache relief.
- Follow-up in three months for reassessment.

Urgency Level: moderate
